PCT/DE2004/001578

Box No. V Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement

1. Statement

Novelty (N)	Claims	1-16	YES
	Claims		NO
Inventive step (IS)	Claims	1-16	YES
	Claims		NO
Industrial applicability (IA)	Claims	1-16	YES
	Claims		NO

2. Citations and explanations (Rule 70.7)

1. This report makes reference to the following documents:

D1: DE 199 48 852 C (WEBASTO TUERSYSTEME GMBH) 16
August 2001 (2001-08-16)

D2: US-B1-6 174 020 (DE CLERCQ MICHAEL ET AL) 16
January 2001 (2001-01-16)

2. NOVELTY AND INVENTIVE STEP

- 2.1 D1, which is considered to be the closest prior art, discloses (see column 3, line 41 to column 4, line 66; figures 1-5) a energy guide chain system having all the features of the preamble of **claim 1**, from which the subject matter of claim 1 differs by the provision of a guide channel in the form of a hollow profile having two opposing lateral walls which the lateral walls of the strand and of the deflection regions of the energy guide chain abut with little play, said hollow profile having a passage for the carrier which extends in the longitudinal direction; and by the arrangement of the carrier entirely outside of the area extending between the two strands.

Box No. V

Reasoned statement under Article 35(2) with regard to novelty, inventive step or industrial applicability;
citations and explanations supporting such statement

- 2.2 The subject matter of claim 1 is therefore novel (PCT Article 33(2)).
- 2.3 The problem to be solved by the present invention can be regarded as that of improving the guiding of the energy guide chain.
- 2.4 None of the documents cited in the search report discloses such a guide channel. D1 describes a top covering which covers the energy guide chain from above, but does not guide the chain laterally. In D2, the energy guide chain is arranged freely in the vehicle body. The subject matter of claim 1 therefore involves an inventive step (PCT Article 33(3)).
- 2.5 **Claims 2 to 16** are dependent on claim 1 and therefore also meet the PCT requirements for novelty and inventive step.
